**DETAILED ACTION**  
**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given by applicant's representative, Ken Fafrak, on April 24, 2007.

The application has been amended as follows:

The application does not currently include an abstract. Please add the following as the abstract:

- The present invention relates to: a method for planning an infusion, wherein patient data are captured and the infusion to be carried out is planned using the captured patient data; and to a computer program which may be loaded in the memory of a computer and which includes sections of software code with which the method is performed when the program is running on a computer; and to a device for planning an infusion, comprising a patient data capturing system and a computer system for carrying out planning based on the captured patient data; to a method for carrying out an infusion, wherein the infusion is planned and then carried out; and to a device for carrying out an infusion, comprising a verification device for comparing planned infusion data with actual infusion data.

***Allowable Subject Matter***

Claims 1, 3-11, 13, 15-20, 24, and 25 are allowed.

The following is an examiner's statement of reasons for allowance:

- The claims have been amended to add the limitation that describes determining, from the simulation data, if a desired infusion plan [for administration of a substance into the patient] can be obtained. Based on the determining step, a navigation system is used to position the infusion catheter. The available prior art does not teach or disclose these added limitations, when said limitations are taken in conjunction with the other limitations of the independent claim

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
